Mr. E. B. King
President
Jumbo Mining Company
6305 Fern Spring Cove
Austin, Texas 78730

Dear Mr. King:

Re: Notice of Intention to Revise Large Mining Activities, Mizpah Pit Development, Drum Mine, M/027/007, Millard County, Utah

The Division has reviewed Jumbo Mining Company's Notice of Intent to Revise Large Mining Operations (form MR-REV), which was received March 5, 1990. The project is located in Section 6, T15S, R10W, Millard County, Utah.

Upon completing the review, the staff has determined that the Notice does not satisfy the requirements of Rule R613-004 of the Utah Mined Land Reclamation Act of 1975, Title 40-8, Utah Code Annotated. An application for revision of mining operations should be a "stand alone" document and contain all the information required by the regulations. Alternatively, the application should provide specific reference (by date, volume #, page number, etc.), to those pertinent sections of the previously approved mine permit.

Enclosed you will find a form which indicates the areas/regulations in which the Notice is deficient. Please address the areas that are marked with an (X) and return your response with the supplemental information to us. If you have any further concerns or questions regarding these deficiencies, please do not hesitate to contact me.

The Division has been in contact with the Bureau of Land Management and the State Bureau of Water Pollution Control concerning our joint review of this application. It has been decided that each agency will review and approve of the revision application separately. We will work together to assure consistency of review and avoidance of conflicting regulatory requirements.

The Division will temporarily suspend its review and await your amended Revision Form. In reply, please refer to M/027/007. Thank you for your patience and cooperation in completing this permitting process.

Sincerely,

A handwritten signature in cursive script, reading "D. Wayne Hedberg".

D. Wayne Hedberg
Permit Supervisor
